multidisciplinary theatre

Duration: 35 min.

## *THE SANDBOX*

*Imaginary playground for toddlers*

**This play for pre-schoolers is made of short stories that arise from objects left in the sand and animals living in the sand.**

- " – Can you see the sand? It pours.  
- Yes, it pours.  
- The sand flows everywhere.  
- Everywhere.  
- Look! I've got sand in my hand.  
- Ah? And I, I've got sand in my pocket.  
- Ah? In your pocket? Oh! I too. "

*The Sandbox* is a theatrical play for the early childhood, that mingles puppet theater, objects, clown and shadow theater.

*The Sandbox* proposes a playful and poetic route, strewn with short stories conceived from the discovery of the five senses, which begins as soon as we enter the theater and continues all along the play.
